BIG SCHOOLS FOR YANKS

Four Vocational Universities To Be Established.

CANTONMENT SITES

Institutions To Be Located In East, Middle West, South and Pacific Coast.

Washington, Aug. 23.—Four United States vocational universities situated advantageously in the East, Middle West, South and on the Pacific Coast are to be operated in the near future for the benefit of former service men who are vocationally handicapped.

Announcement of this plan was made today by Charles R. Forbes, director of the Veteran Relief Bureau, who contemplates using cantonment sites for the schools, as suggested last week by President Harding. The courses in the Government universities are to consist of agriculture, elementary and academic science and trades.

Colonel Forbes plans to start the first university within 90 days, and start its work with about 2,000 men in training.

At the present time there are approximately 94,000 men taking vocational training. Of this number more than 40,000 are engaged in the training of some of the trades. The present plan calls for the establishment of classes in masonry, architecture, plumbing, printing, engraving, bookbinding, electrical work, carpentry and steamfitting, as well as courses along agricultural lines, such as horticulture, animal husbandry, dairying, cheese and cream making, forestry, etc.

No legislation is necessary to provide for the four proposed universities, the Sweet bill creating the Veterans' Bureau giving ample authority for the director of the bureau, at the direction of the President, to authorize such a departure from the present established vocational training lines.

RECOVER AUTO

Machine of W. W. Malone of Washington Found In Fairfax County.

An Overland automobile stolen last Thursday in Washington from W. W. Malone was recovered last night by Policemen Magner and Durrer. The machine, according to Mr. Malone, was parked at the intersection of Fourth and East Capital streets. Mr. Malone came here this morning and recovered the machine.

The officers found the machine abandoned near Fairfax County ,about two miles south of this city.

Boat Club Benefit.

Soon To Begin Rehearsals for "Ship Ahoy."

The Old Dominion Boat club has contracted with the John B. Rogers Producing company to produce one of their latest, and best musical comedies here in the near future. The title of the show selected is "Ship Ahoy" and is from the pen of the late Junie McCree. New York put the stamp of approval on "Ship Ahoy" a short time ago, when it enjoyed an extended run on Broadway. Rehearsals are expected to begin shortly under the personal direction of one of the above firm's expert producers.

Last of $50,000 Theft Noted On $20 Bill.

CHESTER, Pa., Aug. 22.—W. B. Linton manager of an Eighth ward market, received over the counter today in exchange for purchases made a $20 bank note on the back of which was printed in purple ink with a pen the words: "This is the last of $50,000 stolen from the Pacific Northern train." Linton inquired of his woman customer where she had received the note, and she told him that her husband, who is employed on a dredge, found it in his pay envelope. The police some time ago received fliers concerning a $50,000 robbery on a Northern Pacific train, and they are now wondering if Chester is getting some of the money.

MRS. KATE WALLER BARRETT TO SPEAK IN NORFOLK

Norfolk, Va., Aug. 23.—Mrs. Kate Waller Barrett, president of the Woman's Auxiliary, will make an address at the opening session of the State convention, American Legion, in Norfolk, Thursday night, September 1. This announcement was made today by Department Commander Robert T. Barton. Commander Barton also announced that Colonel Forbes, director of the War Risk Insurance Bureau, Washington, D. C., would also attend the convention and make an address some time during the three days of the convention.

Reduced Railroad Rates.

Knowing there will be a large number of visitors to Norfolk during the State convention of the American Legion, all railroads have agreed to give reduced rates over their lines.

It is absolutely necessary, it was stated today, for the legionnaires and their friends to ask for a reduced rate coupon before the reduction will be granted.

All visitors to Norfolk during the convention, which is set for September 1, 2 and 3, will be charged full fare to the city, but given half off on return tickets, provided they have a reduced rate coupon.

These coupons can be obtained at all ticket offices and will be issued upon request. Thus, if the fare to Norfolk should be $3 or $6 for the regular round trip, visitors will be obliged to pay only $4.50 for the round trip ticket during the convention, provided they ask for a reduced rate coupon.

Barton Gives Information.

This information is set forth in Department Bulletin No. 79, recently issued by Robert T. Barton, department commander of Virginia. The Bulletin also contains a lot of interesting information concerning the third annual convention. It is stated that the business will be for the purpose of electing officers, amending the state constitution, electing delegates to the national convention and "such other business as may be lawfully brought before it."

Official representation will be by posts and determined by paid up membership on August 16, or fifteen days prior to the convention. Incidentally, membership in the legion does not imply liability for further service. On the contrary, the aim of the legion is toward improved citizenship and 100 per cent. Americanism. In this connection it is announced that Alvin M. Owsley, acting national director of the Americanism Commission, and known as the "Silver Tongue of Texas," will be one of the speakers during the convention.

Delegates Apportioned.

Department Bulletin No. 79 also states that each post will be entitled to two delegates and one additional for each fifty members above the delegate and one additional alternate first fifty. Major fractions of fifty will be construed as counting. A post, therefore, will be entitled to two delegates if its paid up membership is anywhere from 15 to 75; three delegates, from 76 to 125; four delegates, from 126 to 175.

Each delegation may have for its guests such members of the American Legion and their families as they may see fit to invite. Which is why the Richmond post of 700 members has voted to attend in a body. A registration fee of $3 a head will be assesed these guests which will include all the entertainment features of the convention—a review at the Naval Operating Base; the boat ride to the capes and return, with supper on board; the dance at the Hague; the outing at Ocean View Park, and the shore banquet there.

The pre-convention committee chairmen are: Resolutions, W. A. Stuart, Big Stone Gap; legislation, John L. Graves, Charlottesville; constitution and by-laws, R. B. Adams, Roanoke.

Rites for W. W. Ballenger At 4 P. M., Tomorrow.

Funeral services for Alderman William Walters Ballenger, who died yesterday morning, will be held at 4 o'clock tomorrow afternoon at his late residence, 305 Cameron street, and will be conducted by Rev. Dr. John Lee Allison, pastor of the Second Presbyterian church, and burial will be with Masonic honors in Bethel cemetery. The members of Andrew Jackson lodge of Masons No. 120, of which he was a member, will assemble in their lodge room promptly at 3 o'clock to attend the funeral. Members of the various other Masonic bodies with which he was identified also will attend the funeral as will also the members of the board of aldermen.

CLARA SMITH HAMON WEDS MOTION PICTURE DIRECTOR

Los Angeles, Aug. 23.—Clara Smith Hamon, acquitted in Ardmore, Okla., several months ago when tried for the murder of Jake L. Hamon, was married here late today to John W. Gorman, a motion-picture director.

After obtaining license to marry the couple drove to the residence of the Rev. M. Howard Fagan, pastor of the Wilshire Boulevard Christian Church, who performed the ceremony.

Mr. Gorman announced he and his wife would make their home here. Mrs. Gorman has been engaged since last April in making a film under his direction.

STATE NEWS

Lynchburg.—The Lynchburg Boat Club has started a movement to build a new club house for next season, present quarters being old and inadequate. The club has a considerable membership among lovers of swimming and canoeing.

Norfolk.—It is permissible to have less than a gallon of whiskey in your home, according to a ruling made by Police Judge Simmons this morning. He dismissed charges against two persons accused of violating prohibition laws, in each case a smaller quantity than a gallon having been found, with no evidence that the liquor was being sold.

Richmond.—An "official call" for a state mass convention of "Republicans of Virginia" male and female, white and colored, to be held at Richmond, September 5 "to consider the advisability of nominating a candidate for governor and other state officers" has been issued by John R. Pollard, chairman and H. H. Price, secretary "by order of the state committee."

Lynchburg.—The local dealer of weights and measures, acting now under the direction of the municipal Public Welfare Department instead of the State, has been checking up automobile service stations, and some of them have been found to be short a quart of gasoline in five gallons. One place was found to be delivering a pint over each five gallon measurement. No arrests have been made, but dealers are being warned to have their measures correct in the future.

Danville.—R. E. Bolton, proprietor of a sideshow traveling with Gentry's Circus, which performed at Spray, N. C., last Saturday, is at Edmunds Hospital here in a serious condition as the result of a bullet wound inflicted Saturday night by a negro, whose name is known to the Spray authorities, but who has made his escape. Bolton had charge of a sideshow near the main tent when, it is alleged, the negro entered and an altercation took place between him and Bolton on the question of admission fee.

Lynchburg.—General E. W. Nichols, superintendent of Virginia Military Institute, declined tonight either to deny or affirm the report that the board of visitors of the institute, meeting in Richmond Saturday, had recommended the dismissal of Prof. Robert K. Karlin for certain remarks alleged to have been made by him relative to the racial disorders at Elaine, Ark. When questioned by long-distance telephone, General Nichols refused to discuss the matter or be quoted in any way.

Norfolk.—Theodore Roosevelt, assistant secretary of the navy, has wired his regrets that he will be unable to attend the state convention of the American Legion in Norfolk next week. "There is nothing I would rather do than be with you," Mr. Roosevelt wrote, "but my calendar calls for an inspection trip at that time. I am doing my best to hold down this job and it takes all my time. Many thanks for the invitation. I appreciate the honor. All good wishes for a most successful and pleasant session." Mr. Roosevelt was one of the founders of the American Legion.

Richmond.—Though reported resting fairly comfortably tonight, Major William Munford Ellis, of Shawsville, is gradually growing weaker at Johnston Willis Hospital, this city, and it is feared that the end is not far off, his attendants say. Major Ellis is a son-in-law of John Tyler, tenth president of the United States. His wife and most of his eight children by his marriage to the president's daughter are at his bedside. By a previous marriage, there are three daughters. He is in his seventy-fifth year. He was brought here for treatment for a severe ailment of the stomach.

Richmond.—Indications now are that it will not be before early in Septemb - that the Virginia War Memorial Commission and the State Library board, which have the awarding of the contract for the building of the $2,000,000 War Memorial Library will hold their next meeting. The special committee which was appointed to engage an advisory architect will not be able to act for a week or two, it is believed, because Senator G. Walter Mapp, who is a member, is detained at his home in Accomac. The joint commission will be called in session, however, as soon as the special committee is ready to report.

Winchester.—The fact that he lost both legs while serving with a Canadian regiment in the war in France did not keep W. P. Solliday from winning by ten feet in a swmiming contest Saturday afternoon in a pool at Rock Enon Springs against George Dunham. Someone offered to bet that Solliday could not keep abreast of Dunham, much less beat him, and in a short time a purse of considerable size was raised. Solliday jerked off his cork legs and crawled into the pool, followed by Dunham, and at the word "go" each man struck out for the far end of the pool, Solliday finished at least ten feet ahead of his two-legged opponent. Over 500 peo-

BATTLE IN BELFAST

Unionists Fight With Sinn Fein—Unionist Mob Attacks.

FIGHT IN DARK

Mob Uses Hand Grenades In Attack On De Valera's Followers—Police Intervene.

Belfast, Aug. 23.—A tense situation prevails at Belfast this afternoon, following two outbreaks of fighting between unionists and Sinn Feiners.

Following an early morning burst of rioting, disorders again broke out when a Unionist mob armed with rifles and revolvers, made an organized attack against a party of Sinn Feiners who were on their way home. The plan for the assault was carefully laid, the attackers being summoned by the blowing of whistles.

The homes of the Sinn Feiners were attacked and damaged. The Sinn Feiners rallied and the fighting spread through the streets. Policemen were rushed to the scene, but were unable to do anything with their riot clubs. The mobs were not dispersed until the police fired fusillade from their service pistols.

Rioting, in which many shots were fired and bombs were used, broke out early today in Queen street.

The trouble began with a clash between Sinn Feiners and unionists.

Shooting occurred for several hours and the street lights and many windows were demolished.

In the darkness the police could not distinguish the attackers from the attacked and were compelled to charge indiscriminately through volleys of bullets.

The bombs were home-made affairs and failed to explode.

LAWN FETE A SUCCESS

Director and Committee In Charge Thank All Who Assisted.

The lawn party given last night on the Friends' Playgrounds on the north side of Queen between Washington and Columbus streets, was a great success both socially and financially The director and committee in charge wish to thank th emayor and Mr. Robert S. Jones, the latter chairman of the Red Cross, and they expressed gratification at the interest they displayed.

The committee also desires to thank the neighbors for their liberal donations and the loan of tables; the Brothers' School for the use of their piano and lawn; the orchestra which with their sweet music added much to the pleasure of the occasion; B. Wheatkey's for loan of chairs and hauling same; Washington and Ladd for the fine electrical display made; Mr. Crump for his untiring efforts to make the party a success and the two little dancers who deserve the applause they won.

Several lady volunteers did noble work and their efforts were much appreciated by the director and committee in charge.

POLICE COURT

Cases disposed of today in the police court, Justice W. S. Snow presiding, follow: White man, arrested by Policeman Magner, charged with drunken and disorderly conduct and carrying a pistol fined $25; colored girl, arrested by Policeman Durrer, charged with disorderly conduct, find $25; white man, arrested by Policemen Durrer and Magner, violating the speed law. forfeited $10 collateral; white man arrested by Policeman Snellings, charged with assault, acquitted.

WHEN BACCHUS WEPT

Paris Paper Gives Picture of Destruction of Liquor Here.

A copy of the Paris edition of the Chicago Tribune, received in this city by John H. Fisher, manager of the Postal Telegraph Company here contains an excellent picture of the destruction of a quantity of confiscated liquor at the postoffice corner the afternoon of July 7 by U. S. Marshal Clarence G. Smithers The picture is headed "When Bacchus Wept."

Excursion By Ladies' Aid Society Thursday.

The Ladies' Aid Society of Immanuel Lutheran church is to go on excursion to Marshall Hall Thursday morning. Special arrangements have been made for the boat to stop at the foot of Cameron street on that morning at 10:25 o'clock. Anyone desiring tickets may purchase same from Mrs. William Hellmuth, 108 N. Alfred or Mrs. H. Herfurth, 1012 King street or at the wharf before the boat leaves. All are cordially invited to join in the day's outing and make a pleasant trip down the river.

FORMER RESIDENT DIES

Capt. Thomas W. Campbell Dies In Mississippi.

Capt. Thomas W. Campbell, a former resident of this city, died August 1 at the age of seventy-seven years. The deceased was the eldest son of the late John W. Campbell, for a long time sergeant of this city. He was a brother of Loudoun Campbell, formerly of this city but now of Arlington county. The deceased was a veteran newspaper man and learned the printing trade in Alexandria on the old Virginia Sentinel. The Deer Creek Pilot, published at Rolling Fork, Sharkey County, Miss., in its issue of August 5 has the following account of the death of Captain Campbell:

Capt. Thomas W. Campbell, a gallant Confederate Veteran, and prominent in the newspaper and fraternal worlds of Mississippi for many years, died here Monday morning at the home of his daughter, Mrs. W. A. Crockett, after a lingering illness of more than three months, aged seventy-seven years and four months.

Death was not unexpected and yet the announcement of his passing away gave a very severe shock to his world of friends in Rolling Fork, Vicksburg and elsewhere, for as with men of his years, their friends loved to have them about to tell of the days long gone by, the times when a man's word was his bond, when every heart was filled with Christian love for his fellowmen—when the divine command to "Love thy neighbor as thy self" was exemplified in one of the brightest stars in the newspaper world, the "Fourth Estate." Beginning at the age of 17 Mr. Campbell got his first newspaper experience in his home town, Alexandria, Virginia. After following the profession for a short period, he ran away from home and joined the Confederate army in Virginia, fighting in several battles with Lee's army.

After the war clouds had cleared away he left his home town in Virginia and located in Chattanooga, Tennessee, where he a few years afterwards laid the forms for the first daily paper ever printed in that city. Upon a visit to the great State of Mississippi, Mr. Campbell became impressed with the possibility of this state and sold his paper in Chattanooga and moved to Jackson, Mississippi, and later to Vicksburg where he esablished the Vicksburg Daily Commercial. This paper he conducted successfully until 1889 when he sold his interest in the Commercial and bought the Deer Creek Pilot, a paper which has made a name for itself during the past few years, throughout the United States—there being only five states in the union that it does not go into. In 1918, he sold the Pilot to Frank B. Sharbrough, its present owner; on account of his advanced age and failing health he retired from active service in the newspaper world.

It has often been remarked that "If Tom Campbell had served himself with the same faithful devotion that he had served the public, he would have been numbered among the wealthiest men in the land." And yet of Tom Campbell it can be said in all sincerity, he loved his fellowmen better than himself, and he served them with undeviating devotion.

He was born in Alexandria, Virginia, on March 4, 1844.

Soon after coming to Mississippi he married Miss Augusta Emily Platt, daughter of an old Mississippi family. Unto them were born four girls and three boys, of these one boy and two girls survive him, T. L. Campbell, of 805 Harris street, Vicksburg, Mississippi, and Mrs. W. A. Crockett and Miss Ellen Campbell of this place. His wife preceded him to the grave some fourteen years ago. He also has a brother in Washington, D. C., and a brother and a sister in Alexandria, Virginia, whom he visited only a short time prior to his death.

Captain Campbell was the oldest Knight of Pythia in the state of Mississippi, being a charter member of Robert E. Lee lodge, No. 1, of Vicksburg. The ldoge being named by him.

HEAR DAMAGE SUIT

Case of Mrs. Burton Against City In Progress.

A jury from Arlington County today is hearing the suit of Mrs. Daisy Datona Burton against the city council of Alexandria. Plaintiff seeks to recover damages in the sum of $10000 for personal injuries alleged to have been sustained as a result stumbling over a rock on the sidewalk on the east side of Fairfax between Wolfe and Wilkes streets the night of June 7

The jury sitting in the case is composed of George W. Zachary, J. R. Goode, J. Kent White, Walter C. Davis, D. C. Chambers, John L. Prosise, Frank E. Hopkins, Frank G. Campbell, Edward Shreve, W. T. Ames, S. D. Devaughan and Howard Smoot.

There are nine witnesses to be heard.

The plaintiff is represented by Attorney R. W. Stump and the city is represented by Corporation Attorney H. Noel Garner. The case is being heard in the corporation court before Judge Robinson Moncure.

The jury at 3 o'clock this afternoon visited the place where Mrs. Burton sustained the fall. It is expected that the case will go to the jury about 5 o'clock.

PANAMA MAY USE ARMS

Prepared To Resist Costa Rican Occupation of Coto Territory.

FORCE TO DISTRICT

Capital Officials Say United States Must Stand Pat On White Award.

Panama, Aug. 23.—Panama is prepared and ready to repel the Costa Ricans should they invade the disputed Coto territory. No definite action will be taken, however, until it has been learned what attitude the United States Government will adopt toward Panama in the event the Panamans oppose the taking over of Coto by the Costa Ricans.

Cable messages sent by the Panaman Government to Washington, with the view of ascertaining the American Government's attitude toward Panaman resistance to Costa Rican occupation of Coto have not been answered.

Armed men to the number of 750 have been ordered to proceed to Coto from David. They will take with them ten machine guns, which were purchased in the United States last April.

Secretary of Government and Justice Alfaro has given orders to Chief of Police Arango to hold the entire police force of Panama and Colon in readiness to march to Coto. Identical orders have been sent the heads of the police forces in interior towns.

Mayors have been ordered to revise their volunteer lists and to advise the men to be ready for an emergency.

San Juan Del Sur, Nicaragua, Aug. 23.—The Government has issued a decree of a state of siege throughout the republic. The disturbed condition in the northern departments is given as the reason.

All is quiet in the departments of Chinindega, Leon, Managua, Granada, Carazo and Rivas.

Washington, Aug. 23.—In the opinion of high officials of the Harding Administration it would be fatal to the prestige of the United States in Latin-American if Panama were allowed to occupy territory which has been awarded to Costa Rica.

In simple justice, it is held, Costa Rica is entitled to the territory west of the boundary line fixed in the award of the late Chief Justice White on the Atlantic side and to Coto district on the Pacific, which Panama concedes to be Costa Rican, but which has been held for years by Panama as a sort of lever to force concessions from Costa Rica on the Atlantic end of the harbor.

In reply to Panama's contention that Justice White exceeded his authority as arbitrator, officials point out that it was impossible to run the line under the original Loubet award and that was the sole reason the matter was submitted to Justice White.

Both Panama and Costa Rica agreed to accept the award of Justice White as final, but when it was found to give Costa Rica territory claimed by Panama the latter refused to accept it.

The battalion of United States marines now enroute to Panama is under the command of Major Thomas S. Clarke. It consists of two rifle companies and one machine gun company, with a battalion headquarters detachment and a hospital section.

Officials here express the belief that the transfer of civil authority in the Coto district from Panama to Costa Rica will be accomplished without disorder. The American marines will be landed on the Pacific side, if at all, at a point most convenient to Coto. The settlement of Coto, it was explained, is miles west of the Loubet boundary, which was formerly accepted by Panama and Costa Rica as final and binding. The boundary territory is wild and sparsely settled.

WASHINGTON DAY BY DAY

(From Our Special Correspondent.)

Washington, Aug. 23.—If George White, chairman of the Democratic National Committee, decides to become a candidate for Governor of Ohio next year, some of his closely discussedmw mw mw mw mw mwm friends in Washington say that he will resign from the National Committee when that body meets in October. Mr. White is one of the three prominently discussed for the Ohio gubernatorial nomination, the others being Judson Harmon, formerly Attorney General and A. V. Donahey, the Democratic nominee in the Buckeye State at the last election. Those who are supposed to speak for Chairman White say that if Judson Harmon decides not to become a candidate, White will enter the race because of the bearing it will have on national politics. White, being the first lieutenant of James M. Cox, the Democratic Presidential nominee at the last election, is going to make every effort to redeem Ohio for the Cox forces at the next election.

Simply Precautionary.

State Department officials made it very clear today that the 300 marines on board the battleship Pennsylvania bound for Panama are not being sent there to do any fighting. Their presence is needed, it is asserted, only as a precautionary measure. When they get there, they will not be expected to do any fighting. Their presence is needed, it is asserted, only as a precautionary measure. When they get there, they will not be expected to make even so much as a "demonstration." Secretary of State Hughes has served notice on Panama that she must relinquish the town of Coto to Costa Rica. Panama has been holding Coto and surrounding territory for the purpose of attempting to force boundary concessions from Costa Rica on the Atlantic side of the Panama Canal. When the U. S. marines reach the Canal Zone it is expected that the Panama "troops" now occupying Coto will withdraw and the danger of a clash at arms will be averted.

To Indict Coffin Makers.

Indictments against coffin makers and distributors who have reaped millions of dollars in extortionate profits are to follow an investigation conducted by Department of Justice agents.

It is said the department has found that probably the most vicious form of extortion yet disclosed among profiteers is being practiced by the makers of coffins. Coffins that are manufactured in factories at $30 are being sold by undertakers for as high as $600, according to the substantiated charges now before the department. Coffins of the inexpensive type, made at a cost of about $20, are sold and charged up in funeral accounts at a cost of between $300 and $400. In other words, according to the revelations disclosed by the department's investigators, it has been a mighty expensive thing to die.

Mellon May Quit.

While both at the White House and Treasury Departments the report that Secretary Mellon has resigned or is about to sever his connection from the Cabinet is denied, friends of the Secretary of the Treasury in Washington declared to the Gazette correspondent today that they would not be surprised if Mr. Mellon retires to priviate life in the very near future. Mellon who is a very sensitive individual, does not like the way he has been handled by the leaders of the present administration. Especially is he displeased at the manner in which his tax revision plan was literally ignored by not only the President but the Republican members of the Ways and Means Committee as well. Mellon is not a politician in any sense of the word, and Republican leaders are fearful that if he remains at the head of the Treasury Department and puts the financial condition squarely before the public, according to the facts and figures, the showing made will prove disastrous to party success two years hence. Hence, the necessity for the retirement of Mr. Mellon.

FORTUNE MADE SHINING SHOES TO BUILD MILLION DOLLAR HOTEL

Uniontown, Pa., Aug. 23.—Gregory Brothers, Uniontown bootblacks, have optained a site in Main street and announce they will consider bids for a $1,000,000 hotel by October 1, at which they will close negotiations for the ground located within two blocks of the city's business center.

Fifteen years ago the eldest of the five brothers arrived in Uniontown from Greece penniless and secured a job in a shoe-shining parlor. Two years later the remaining four had been provided with transportation to America, and all five went to work shining shoes in a cubbyhole spa[illegible] which opened in Main street.

Successful realty investments enabled them to purchase the Yough[illegible] hotel, in Connellsville, a business block in Uniontown and a number of residential sites. The advancing market trebled the value of their holdings. Last week they disposed of a square bounded by North Gallatin avenue, Peter and Penn streets to Harry Cooper, a tinsmith, for $150,000.

The hotel project has been seriously considered by several local coal and coke producers, but the Gregory's are the first in the field with an announcement of their plans. The new building will rival Uniontown's skyscraper, the First National Bank [illegible]ding, built by J. V. TODAY'S THOUGHT There never was a good war or a bad peace. Ben Franklin.

CITIZEN SLACKERS

To say that a citizen of the United States owes duty and allegiance to his country only in time of war is to utter a dangerous fallacy. Those who, under one pretext or another, evade military duty, we call slackers; a term which the late war has rendered as opprobious as that of traitor. But those who evade their civic duties to their country in times of peace, are equally as blameworthy and contemptible.

The Virginia Association for the Common Good, with headquarters at Richmond, is a patriotic organization that has done and is doing far-reaching good. Moved only by the highest purposes, it from time to time sounds notes of warning whose admonition should be heeded by the people of the state for whose welfare it is working. It has been at the pains of tabulating the vote per thousand in the leading cities of the United States at the national election of November, 1920.

The average number of votes per thousand of population in the whole country was 268.03. The highest vote per thousand was cast in Dayton, Ohio, with a vote of 436; the second was Kansas City, Mo., with a vote of 432; the third was Cincinnati, Ohio, with 424; and the fourth was Wilmington, Delaware, with 399. The lowest in the list of fifty-six cities was Norfolk, Va., with 71; and the next lowest, Richmond, with 113.

The total vote of Virginia for president in 1920, with the women voting, was 229,952, out of a population of 2,306,361. This was equivalent to 99 out of every thousand of population, about ten per cent., while the average for the entire country was approximately 24 per cent. of the population. The Democratic primary vote in Virginia on August 2, last, was a little over 150,000.

Of course there are several cogent and conclusive reasons why the average vote in the Southern states should not equal that of the Northern and Western states But the fact remains that there is a lethargy existent among the electorate that should be overcome. The duties of citizenship cannot be too urgently impressed on those who partake of its advantages. Fealty in peace is no less obligatory than fealty in war.

The query propounded by the Virginia Association for the Common Good may, therefore, be entirely opportune and appropriate: "Is it not time for a better m[illegible] of citizenship?"

SEWING WITH A PURPOSE

For once, the girls were too busy to talk. Every face betokened the liveliest interest in the work at hand. Miss Kerr had never seen the girls of her domestic arts class so intent upon the day's lesson. Needles were plied with a new energy and the garments on the sewing tables were fast taking shape.

"There, the blouse is all finished," said Amie Louise just a moment before the class bell rang, and all of the other girls ran over to take a look.

With reluctant hands they put away their sewing material, and as they filed out of the room, Miss Kerr smiled her satisfaction. She had found the way to arouse the interest of her class in the sewing lessons. Instead of practicing various stitches or making a garment for themselves, they were sewing garments for others, for girls like themselves who were in need of these products of their classroom.

It came about in this way. After the school had enrolled in the Junior American Red Cross, Amie Louise suggested that the sewing class make its work count in the service of others and immediately a committee was formed with Miss Kerr, at the head, to ascertain if there were any needy families in the neighborhood for whom the class could sew. Soon the committee made its report and then the class began its self-appointed task First, slightly worn garments were altered and mended and made serviceable, and then the Juniors appropriated a sum of money for the purchase of material for the making of the badly needed garments which the committee found necessary for the "adopted" families.

It was no longer necessary for Miss Kerr to strive to arouse and maintain the interest of each little seamstress. Many of the girls spent an hour in the sewing room each afternoon after the close of school. As Amie Louise said, "making something for someone who actually needs it, isn't work." And she sighed because she could not make her needle go faster.

AMERICAN CHARITY

New York, Aug. 23.—Word has been received at the headquarters here of the American Relief Administration that the gift by American farmers to hungry Austrian children —196,000 bushels of corn—has reached Vienna in the form of grits, meal, flour and other milled products. The donation represented a cash value of $120,000 on the part of the farmers.

In addition, the railroads gave free transportation to seaboard, and the four brotherhoods of railroad employes furnished crews who ran the trains without pay. The action of the brotherhoods was voluntary, while the railroad companies willingly complied with the request of Herbert Hoover, chairman of the American Relief Administration, that they co-operate. The Chicago Board of Trade waived its charge of $5.60 a car, the grain elevators cut their charges from 1 1-4 cents to 7-8 of a cent per bushel and the millers reduced theirs five cents a bushel.

At the same time the farmers contributed 185,000 bushels of corn, worth $124,000, for Polish relief and this has recently arrived in Warsaw, according to reports to the American Relief Administration.

Dr. Clemens Pirquet world famous health expert who has been co-operating with the American Relief Administration in Austria, wrote as follows from Vienna in acknowledging the gift:

"For two years our population has been enjoying the generous help of the Americans, thousands of children being actually saved from starvation because a good and nourishing meal was prepared for them at the American kitchens every day. The American flags across the school buildings where the feeding stations are located have become a well known feature here and throughout Austria. But during the past months the question often arose as to how long the American Relief Administration would be able to continue its work, for even Mr. Hoover's tremendous efforts to help the children of Central Europe could not be expected to go on forever.

"That is why we so greatly appreciated the generous donation of the American farmers for it will enable us to furnish hundreds and thousands of portions of a good square meal to the children. We are grateful to all the kind Americans that have helped to make the Hoover drive a success, but we are especially thankful to these good farmers for their splendid spirit."

The corn gift was first suggested in January last when J. R. Howard, president of the American Farm Bureau Federation, wrote to Mr. Hoover that the farmers of the corn belt, anxious to aid the European Relief Council drive, then in full swing, were short on cash but had a surplus of corn they would gladly contribute. General Ashner Miner, head of a large milling corcern in Wilkesbarre, Pa., and T. M. Chivington, secretary of the American Corn Millers' Federation, undertook to enlist the miller. As soon as word of what was afoot reached the railroad brotherhoods, Warren S .Stone, chief of the engineers, L. E. Shepperd, of the conductors, W. S. Carter of the locomotive firemen and enginemen, and W. G. Lee, of the railroad trainmen, sent their offer of crews to Mr. Hoover. Daniel B .Willard, president of the B. and O. Railroad, and Conrad E. Spens, of the C. B. & Q., were instrumental in arranging free transportation. Howard B. Jackson, of Jackson Brothers, Chicago, had much to do with persuading the Board of Trade and grain elevators to help out.

THE NEW BOY

Hal knew it was a time for much thought and careful action. He was a new boy in town and the next day marked the opening of school. Everything depended upon that first session; what sort of treatment would he receive at the hands of the boys; what would they think of him?

Curiosity prompted him to walk over to the schoolhouse and there he saw several happy groups of children at play and a number of older boys and girls busily engaged in cleaning the grounds and tidying up the school building, evidently in preparation for the morrow. Being a stranger, he did not linger, conquering the impulse to say "Hello" to a bright-faced boy near the gate who seemed about to invite him in.

Next morning, he carefully watched the clock to make sure that he would arrive at school just in time to go straight to the principal's office and thus avoid meeting any of the pupils at least until recess. Hal was about to tell his mother goodbye, when he thought of the Junior American Red Cross Service Button on his coat. It had been a badge of honor at the old school, but he slipped it off, placed it on the library table and went out.

When he reached the schoolyard gate, he hesitated, for there were three or four of the largest boys and girls standing just inside apparently awaiting him. Suddenly one of the boys called out "Hello! come right in." There was something so genuine in the greeting that Hal's face brightened and somehow he felt greatly relieved. A minute later, he found himself walking up the short flight of steps at the entrance to the schoolhouse, the boys at his side to whom he had already told his name, having volunteered to show him the way to the Principal's office. When he emerged, he found the boy again awaiting him to escort him to the room to which he had been assigned.

At recess his new friend soon introduced him to the big boys who had been grouped at the gate that morning. One of them volunteered the information that they constituted the reception committee which tried to make things pleasant for new pupils like himself. He was urged to go out to the playground and get into the thick of the fun and soon he found himself deep in the excitement of "Prisoner's Base." All that first day at the new school, Hal found himself cordially greeted and there was always a friendly hand to guide him over the strange places. He knew he was going to like that school.

One the second day, as he was about to leave for school he called to his mother, "Where is my Junior Red Cross pin?"

"On the dresser in your room, son" came the reply.

As he pinned the little button back on his coat, he gave a knowing smile. He had seen buttons like it on the coats and dresses of almost every pupil in the school he now proudly called his.

Mrs. SELCHERT'S DAUGHTER

Was Restored to Health by Lydia E. Pinkham's Vegetable Compound

Horicon, Wis.—"My young daughter had been troubled for several months with backache and a bad feeling in her stomach. When she got to the table to eat she did not want anything, while before she was so hungry she could hardly wait for her dinner. The doctors gave her medicine but it did not help her. One day I was reading a little book of yours which was left on my porch and it reminded me that when I was a young girl I took several bottles of Lydia E. Pinkham's Vegetable Compound. So she went to the drug store and got a bottle and after the second one she could eat and has not had backache since. In all she took six bottles of it. She goes to school and on Saturdays helps with the housework. She is a normal, healthy girl now and we recommend your medicine. You have my permission to publish this letter as a testimonial for the Vegetable Compound."—Mrs. FRANK SELCHERT, 150 Larabee St., Horicon, Wis.

Mothers all over the country have found Lydia E. Pinkham's Vegetable Compound to be a most reliable remedy for such conditions.

COMMUNICATIONS

Editor Alexandria Gazette:

Your Saturday issue of the Gazete contained an article in favor of the Childrens Playgrounds and against the so-called Knockers and Grouchers. I for one highly commend Mrs. Howards' efforts toward a playground for children, but for children alone and not young men, and if these young men are eligible to be in the childrens playgrounds let them be governed by the same rules as children. I for one have a just cause to complain for my little boy happened to be in the play ground about five minutes after Miss Howard left when he was ordered out by these young men and just because he didn't mind a hammer was thrown at him which landed just above the eye causing a place to rise part of which still remains, and the only answer he gave fr doing this was that Miss Howard told him to keep the little ones out. On other occasions I have seen them hurl missles through the iron grating in the gate at about seven children that reached there before Miss Howard not caring whether it killed or not. I am truly in favor of as many playgrounds for children as the city can support, but children are just as safe in the street as under the rule of these young men, some of which should be through college and fully able to take care of themselves in the street.

I have been visited by one of the active members of the Association through no request of mine and fully agreed with on this subject.

Probably if Mr Crump had the same thing to happen he would be of the same opinion as I am that the playgrounds should be for children and not for young men. We have a Y. M. C. A. director here.

MILLIONS FOR ROADS

No state can expect to keep pace with the progress of the times without an extended system of good roads and no state can have an extended system of good roads unless it is willing to pay for them. This fact is recognized in North Carolina, a state that is preparing to issue $50,000,000 in bonds for the building of highways. This money will be expended by the state as a whole, while millions more will be spent by several of the larger and more progressive counties in building lateral roads leading into the main highways.

Charles W. Upham of Delaware, a man experienced in modern highway construction, has been put in charge of the work in North Carolina. He is highway Engineer for the state of Delaware, but is in North Carolina on a year's absence, and will undertake in that time to map out the work in the latter state so that it may be carried on by ohers. "I find that North Carolina has some six thousand miles of roadways of all kinds," Mr. Upham said in an interview. "These roadways range from mountain trails of earth to modern highways. To these we propose to add in the following manner; We will attempt a program, based on the construction for the first year, of four hundred miles of new hard surface roads of improved type, consisting of macadam, concrete, asphalt, or a combination of these, and we shall construct five hundred miles of these roads in each succeeding year." To these statements the Charlotte Observes add:

"Mr. Upham predicts that the people of North Carolina and adjoining states, as well as leaders in great business centers beyond, are awaking to the prospect of the greatest industrial expansion North Carolina has ever experienced, as a consequence of its proposed highway improvement."

It is a pleasing picture for North Carolina to contemplate, and it is not overdrawn. With a fifty-million dollar State highway system, and with millions of dollars' worth of lateral roads built by the counties to reach out in every direction, North Carolina may confidently look forvard to such industrial expansion and to such general progress and prosperity as she have never experienced and as no state can expect without a net work of good roads. The money North Carolina will put in roads will be best investment its people have ever made.

There is a strong sentiment in Virginia for a bond issue for the construction of a system of State highways. At present there is opposition to the proposal but the opposition doubtless will disappear as the realization is forced upon the people that their State is falling behind in the march of progress.

In Earlier Days

In former times, when the town butcher or farmer himself dressed and cured the meat for the community, he could not always tell how it would turn out.

His methods were crude; partly traditional, partly guesswork. His tests were few and inconclusive.

Meat packing of today, as carried on by Swift & Company, has changed all that. It is scientific. Nothing is left to chance; nothing taken for granted.

The most painstaking care and attention are given to every step. Processes are worked out on a large scale with minute exactness. Methods are continually revised and improved. Cleanliness is insisted upon. Drastic, incessant inspections are the order of the day.

Swift products are uniform, graded according to quality.

Take bacon, for instance.

Swift & Company set out years ago to make a delicious, savory bacon which should be uniformly excellent.

The result is Swift's Premium Bacon, always the same, always famously good. Today this bacon, wrapped, sealed and branded, has circled the world.

The Brand SWIFT'S PREMIUM

Swift & Company's system of distribution carries it to places which the "town butcher" or the farmer could not reach.

NAVAL VICTORY.

Baltimore, Aug. 21, 1813.

Amidst the gloom occasioned by the disasters experienced by our gallant little fleet on the Lake, we are cheered with the hope of another NAVAL VICTORY having been obtained by Commodore Rodgers near the Western Islands. This news has been received here from Cadiz as well as from Lisbon; and we are induced to believe, as we hope, that it is true.

The postscript of a letter dated July 4, at Lisbon, received in this city, says:

"We have a report from Cadiz, that Com. RODGERS HAS TAKEN A BRITISH FRIGATE, off the Western Islands; it was brought yesterday by the Stately, 64."

Triple A's, 10—Del Ray, 2.

The Del Ray base ball team proved to be another victim of the invincible Triple A's yesterday. Before a crowd of 1,000 spectators they were defeated by the score of 10 to 2.

Both Groman and Saffell, the best twirlers of the Del Ray nine were hammered at will by the A's. Groman started the game and lasted 4 innings. He was then retired in favor of Saffell but neither one of them could stop the heavy hitting of the A's.

Babe Anderson rode the pill for a homer as usual. G. L. Anderson scored a 3 bagger. Jack Tullock gave it a ride every time up, scoring a 3 baagger, 2 bagger and a couple of safe singles. Quail also drove the pill into the horizon for a 3 bagger.

The sensational fielding of Herring in left pulled the A's out of several bad holes; he had 5 put outs to his credit throughout the game. Babe Anderson also did some sensational fielding away out in center. Snyder, Hodge, Wop and G. L. Anderson handled the infield in a professional manner.

"Smiling" Jimmy Quayle pitched his usual game, allowing only two safe hits. Savage the iron man and maker of the A's, did the receiving.

The A's have made a name for themselves in their first season of base ball. In fact they are now ready and will show the big D's how the game should be played. This will take place at Baggets Field on Sept. 4th

Fans, don't forget the date!

Wearing nothing but a smile the team representing Indian Head stepped in Saturday to day the Dreadnaughts. They took one of the worst wallopings any visiting team has had this season. The final score being 15 to 3. The D's got to their pitcher, Heise, quick as he beat it for the showers in the fourth. Marshall, who releived him, did not fare any better, as the D's garnered nineteen hits off these birds which is some day with the stick. The Capitol All Stars were also put on the list of victims yesterday, they being unable to score a run while the D's were getting seven. Frye was invincible, allowing but two scattered hits and striking out nine. The D's played big league ball yesterday, collecting thirteen hits and having the largest number of assists and putouts made this season. They played errorless ball with Williams Long featuring. These two birds got in front of several yesterday that looked like safeties and it is a good bet that Williams to Devers to Long surely means that the old pill is being handled in a way that makes the fans sit up and notice. Eighteen putouts and fifteen assists with no errors show what this infield did yesterday.

NOT TOO BUSY NOW

One Western teacher wrote to her Red Cross Chapter, "I wonder now that I ever thought I did not have the time to do Junior American Red Cross work. It is a blessing to all who undertake it. We correlate it with our school work without the slightest effort."

Leesburg.—The summer meeting of the Virginia Guernsey Breeders' Association was held at Morven Park, the country home of Governor Westmoreland Davis of Virginia, Saturday. The welcome to Loudon county was given by H. T. Pancoast, president of the Loudoun County Breeders' Association. Welcome to Leesburg was given by a representative of the Leesburg chamber of commerce, while the welcome to Morven Park was given by Governor Davis. A response was made by Judge Chichester, president of the Virginia Guernsey Breeders' Association. C. T. Rice, secretary, discussed the work of the state association. W. W. Pitzpatrick, American Guernsey Cattle Club, gave an interesting talk on "The Guernsey Outlook in the South." After lunch an inspection of Morven Park Guernsey herd was made. This was followed by a tour of inspection of the principal herds in the county.

Norfolk.—A. C. Wicks, pharmacist mate, third class, stationed at the naval operating base, was drowned Saturday afternoon at Virginia Beach when he was seized by cramps and carried out by the tide. The accident occurred about 5 o'cock, with the tide low and running out. Wicks had left a girl companion and ventured out beyond the ropes, where, although several hundred feet from the shore, the water was only about to his waist. His struggles in the water attracted the attention of the girl, who summoned aid. Before the life guards could reach him, however, he had gone down the third time, and his body had disappeared. Wicks was formerly attached to the dentist department at the base, and was one of the most popular and highly esteemed enlisted men at the station.

What is Satisfactory Bread?

Bread to be satisfactory must possess three virtues.--
It must be absolutely PURE.
It must contain the maximum of NUTRITION.
It must be of the texture easily masticated----and therefore most PALATABLE.
It is these three points which make
CORBY BREAD
so essentially different from any other---and render it THOROUGHLY SATISFACTORY.
Little wonder---when you analyze the care with which every ingredient is selected---and every stage of the makitg is progressed---for truly CORBY BREAD is
100% Pure, and
100% Nutritious
It is made right here in Alexandria and delivered to your grocer and delicatessen fresh from the ovens.

DODSON SOUNDS CALOMEL'S DOOM

The 'Liver Tone' Man Warns Folks Against the Sickening, Salivating Drug

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you lose a day.

Calomel is mercury! When it comes into contact with sour bile, it crashes into it, breaking it up. Then is when you feel that awful nausea and cramping. If you are sluggish, if liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight.

Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous, go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it can not saivate or make you sick.

To Check Sale From France.

An interesting race has developed between French importers and Congress because of the effort of the French to land in this country as much as possible of the $200,000,000 worth of new and reconditioned war supplies bought from the United States army after the war. A joint resolution which imposes a 90 per cent. duty on such goods, based on their present American value, has passed the House and is about to be passed by the Senate. It is hoped that the bill can be enacted before the recess of Congress and thus put a stop to the flood of such supplies coming into this country from France. These war supplies were purchased by France from the U. S. for one-fourth their actual value.

A splendid sermon on "The Lord's First Worshippers," from Matt. 2:11 was delivered on Sunday morning in the Del Ray M. E. Church by the pastor, Rev. J. R. Wood. His sermon in the evening was Matt. 6:9 to 13, "The Lord's Prayer."

Tomorrow is the day for the picnic of the Del Ray Sunday School at Snowden Station. All members and friends of the school and church are cordially invited to enjoy a day in the open, with rest or sports as suits each one. Mr. K. E. Wallace, of the Alexandria Y. M. C. A. will be one of us tomorrow, and will arrange the sports you all know that means FUN! Everyone who owns a base ball, bat or glove, a foot ball, basket ball, or any other ball, is asked to mark same plainly with owners name and take it along as they will all be needed in the sports. There will be other sports than ball—but wait until you get there. There will be dressing tents for bathers' use. Motor trucks will carry small children and baskets from the station to the picnic grove. The start will be made from the church in Del Ray at 9:30 o'clock tomorrow, Wednesday morning, so be on time, and ready for a happy day.

COLONIAL TARIFF POLICIES

The United States Tariff Commission has just issued a report on Colonial Tariff Policies. It describes the tariff policies and certain phases of colonial administration in the colonies of Great Britain, France, Italy, the Netherlands, Belgium, Portugal, Spain Japan and the United States. It also deals with the mandate territories created from the former German colonies and the Turkish Empire.

Because of the development of American export trade and the increasing dependency upon certain raw materials produced in colonial areas because of the growth of American shipping and the extension of our investments in foreign countries, the United States is becoming more and more concerned with the commercial policies pursued by the great powers in their colonial possessions.

The self-governing Dominions of the British Empire, Canada, Australia New Zealand and South Africa, have evolved since 1897 an elaborate system of imperial preferences. The tendency has been for these preferences to increase as against forign goods, but the minimum tariff imposed on British products has always been intended to protect the young industries which have been developing in the Dominions. In 1919 Great Britain herself followed the Dominions in establishing preference and granted preferential treatment to all Empire goods on those articles dutiable in her market. This action in Great Britain is a significant reversal of her open door position and has already begun to show its effect in the tariffs of the Crown Colonies.

The Netherlands in recent years have maintained the open door in their important colonies as has Belgium in the Congo. All the other powers have to a greater or less extent granted preferential treatment to national products in their colonies and also have granted colonial goods preferential treatment in their markets. The United States has followed the policy of preference in both Porto Rico and the Philippines.

The mandate territories are divided into Classes A, B, and C. The draft mandates for Class A at the present time provide for equal treatment of members of the League of Nations. The Covenant of the League of Nations provides for the open door in Class B. In the case of Class C it permits assimilation, and Southwest Africa has already been assimilated to tariff system of the mandatory, and discriminatory measures have been enforced in Western Samoa and New Guinea.

The Commission's report discusses these and kindred subjects in detail; it analyzes tendencies, gives statistics and lays what is believed to be a foundation upon which this Government may frame a commercial policy relating to the great colonies of the world.

This subject of colonial tariff policies forms an increasingly important problem in the adjustment of the commercial relations of nations and should be considered in enacting any legislation affecting commercial agreements or in adopting any measures to formulate the commercial policy of this country. Industrial nations are becoming more and more dependent upon the great colonial areas which constitute half of the earth's surface and it will contribute to harmony and good will in the world if these problems can be settled through conference. The policy adopted by the United States in the present state of international relationships will doubtless have its influence on the policies of other colonial powers.

Copies of the report "Introductory Survey of Colonia Tariff Policies" may be obtained for 10 cents from the Superintendent of Documents, Government Printing Office, Washington, D. C.

A motor has Individuality

ALMOST every gasoline engine has certain peculiarities. In the selection of fuel these slight differences are of great importance, for it is the "food" which must overcome the influence of small variations in the habits of the engine.

The surest way to approach efficiency is through consistent use of a uniform, high-quality gas. Once you have accustomed your motor to the proper mixture of a uniform gasoline, smooth running is assured and you will have rid yourself of many motor troubles. Some repair jobs may be directly traced to the use of poor fuel.

You cannot go wrong in the consistent use of our "Standard" Motor Gasoline. The experts of our Development Department are convinced that it is the highest quality of gasoline on sale today. If you have not already tried it you should do so at once. It is now on sale wherever you see the familiar "S.O." Sign.
